

# NT6500

## Time & Attendance Kiosk

## Push Technology Clock

### NT6500 – A Time Clock and A Kiosk Station

NT6500 is a time clock with modern appeal and it serves as a fully functional KIOSK station to increase convenience for your employees. An ideal standalone workforce management self-service solution!

- ▶ **No PC? No problem.** NT6500 offer self-service functions to employees with no access to desktop computers, or those are not located near an HR office.
- ▶ **Offers easy to use time and attendance features such as:**
  - ▶ Punch in and out using barcode, proximity, magnetic strip, or key-in using employee ID, SS number, or badge number.
  - ▶ Multi-level job transfer to support job costing needs.
  - ▶ Allows employees to input sick hours, vacation hours, personal leave time, etc.
  - ▶ Supports input of tips, bonus dollars, etc.
  - ▶ Support employee schedule lockout.
- ▶ **An extension of your HR department supporting after-hours inquiries:** Do you have a 24 by 7 operations without a 24 by 7 Human Resource support? Worry no more...
  - ▶ Real time access of your employee accrual information for vacation hours, sick time, personal leave time, etc.
- ▶ **Amazing kiosk features and functions like:**
  - ▶ Real time access of employee timesheet.
  - ▶ Real time access of employee work schedules.
  - ▶ Real time access of employees' performance tracking data (point system).
  - ▶ Supports private messaging to your employees.
- ▶ **Better employee satisfaction with information at their fingertips.**

### Push Technology: No More Data Collection!

Still running the traditional "data collection" process? Try NT6500...

- ▶ **Innovated Push Technology:** NT6500 pushes punch data automatically from your time clocks to the server based on a preconfigured schedule, whether immediately or periodically, centrally controlled in NOVAtime.
- ▶ Seamless communication between NT6500 and the NOVAtime server using **NOVAtime Enterprise Web Services (N.E.W.S.) with built in authentication.**
- ▶ **Self maintained with bi-directional data synchronization** between clocks and the NOVAtime server based on preconfigured schedule, controlled centrally in NOVAtime.
- ▶ **Easy to deploy.** All you need is an Internet connection (via HTTP port 80 access). With a **built-in Ethernet connection**, just hang the clock and plug into the network!
- ▶ **Easy to support and maintain:** All the clock configurations, push settings, synchronization setting, function keys are centrally controlled in NOVAtime.
- ▶ **Friendly touch screen kiosk** that is easy to use and work with.

# NT6500

## Specifications

### · Performance Characteristics

OS	Windows CE.NET 5.0
CPU	PXA270 – 520MHz
RAM	128MB
FlashROM	64MB

### · Proximity Card Input

EM	125 KHz
HID	125 K

### · Magnetic Stripe Input

Triple track MSR reader

### · Bar Code Input

China Postal Code, Codabar, Code 11, Code 32, Code 39, Code 93, Code 128, Delta Code, Interleaved 2 of 5, ISBT 128, Label Code IV, Label Code V, MSI, Standard 2 of 5, Toshiba Code, UPC/EAN

### · Keyboard

6 hard keys

### Display

5.6" TFT – LCD QGA (240x320) color

### · On and I/O

Digital inputs	4
Output relays	4
Audio speaker	0.8W
Ethernet Connection	RJ45 powered over Ethernet (POE)

### · Power Management

Power Input	12 VDC
UPS	One rechargeable Lithium-ion battery pack 3.8V, 4000 mAh
UPS Operating Time	2 hours operation or 3 days data backup

### · Physical and Environmental

Temperature	Operation: 32°F to 122°F (0°C to 50°C) Storage: -4°F to 158°F (-20°C to 70°C)
Humidity	5% to 95% RH non-condensing

### **Main Features:**

- ▶ Powered by Windows CE.NET 5.0 operating system
- ▶ 5.6" TFT colour QVGA 240x320 resolution touch screen
- ▶ 3 relay outputs and 4 TTL digital inputs
- ▶ External SD slot
- ▶ Built-in UPS battery for 2 hours operation or 3 days data backup
- ▶ POE (Power Over Ethernet) as option
